Applicant would like to thank Examiner Dang for the courtesy of the telephonic interview with Applicant's Representative, R. Michael Reed, on August 3, 2009 in connection with the above-identified patent application.

Applicant's representative discussed with Examiner Dang a typographical error in the Notice of Allowance. In particular, the Notice of Allowance recited "second accelerator," which is a typographical error with respect to the indicated claim 1. The stated reason for allowance should have recited "second processor," which is consistent with claim 1. Examiner Dang's Interview Summary correctly identifies the phrase at issue. No changes to the claims were discussed or made.
